

ZEYNEP ÇIRÇIR

SOFTWARE DEVELOPER

I'm Zeynep Çırçır, a Computer Engineering student with a focus on frontend development. I specialize in Angular technology, crafting interactive and responsive user interfaces. My skills include HTML, CSS, and TypeScript, enabling me to combine technical prowess with creativity. As a software developer intern, I am committed to delivering cutting-edge solutions in the tech field, backed by my fluency in English.

SKILLS

- Eager to learn and implement cutting edge techs
- Good at problem analysis and solving
- Good at learning new things fast
